SYSTEM CABINETS 60/40

System cabinets is used for an optimum use of space inside the storage cabinets. The cabinets can be equipped with adjustable shelves or our ISO Flex Module® baskets and trays for maximum flexibility, efficiency.

The modular system ISO 60/40 is the result of extensive development in order to achieve maximum flexibility in systematically and safe storage that ensures order and clarity.

Universal application

System cabinets are a perfect solution for Laboratorie, hospitals, pharmacies, medical practices and wherever it is needed hygienic and mobile storage solution.

A range of mobile units for the baskets and trays are available, when safe transportation is needed.

A wide programme

System ISO 60/40 comes with a wide range of different material solutions for table tops and fronts and comes with different types of hinged doors or drawers, to fit exactly to the function of each cabinet.

Fixed dividers can easily be attached in the modules with a ClipOn - function and can be adjusted for every 10 and 20 mm. For a more flexible solution, the baskets and trays can be fitted with easy moveable dividers that can be placed in all positions.

Trays and baskets can be equipped with end-stops for fixing the basket or tray in the pull-out situation. When pulled out of the cabinet it can be positioned in a horizontal or sloped position. A basket or tray in a sloped position gives a good overview, even for those in the upper part of the cabinets. It is possible to add your own Logo or name on trays and baskets with a separate text marker. These are offered separately at request.

Trays with over 1000 options for subdivision

Baskets and trays is available in three different materials
